

VICTORY FOR WYOMING

The House Concur in the Senate Amendments

TO THE BILL ADMITTING THE STATE.

Other Work Done by the National Legislature—The Conference Report on the Silver Bill Comes Up in the Senate—Why West Will Vote Against Free Coinage—Contested Election Cases Disposed of in Favor of Democrats.

WASHINGTON, July 8.—The senate Tuesday after routine business took up the conference report on the silver bill. A large majority of the senate had voted for the free coinage of silver, but the conference report absolutely did away with all idea of free coinage, and contained, and was, intended to continue the system under which silver had been persistently and constantly degraded since 1873. He was anxious to see an absolute parity between the two metals as money metals. He would like to see the time when sixteen ounces of silver would purchase as much of gold when an ounce of gold would purchase sixteen ounces of silver.

At 3 o'clock the silver question in the senate was laid over until Wednesday, and the senate proceeded with eulogies on the late Representative S. S. Cox.

In the house Tuesday senate amendments were concurred in to the house bill for the admission of the state of Wyoming. In each case the committee decided in favor of the Democratic contestant. The case of Goodrich against Bullock, from the Second Florida district, was discussed by the committee, but action on it was postponed for a week. The Republican members of the committee seemed to be in favor of setting Mr. Goodrich.

The long-expected evictions of many of the poor families of cloak makers began Monday night. It was little that the unfortunate people had to move out of their rooms when the instructions of the landlords were carried out. Everything of any value had long ago found its way to the pawnshop. These families late Monday night received temporary shelter. It was asserted Tuesday that many other families have received dispossessing notices and are anxiously expecting eviction. What is creating more than a little excitement at the headquarters of the cloak makers is the report that the manufacturers may be indicted by the grand jury for conspiracy. It was given out from an authoritative source that there was little doubt that the grand jury would bring indictments against the manufacturers' association.

THE CYCLONE AT FARGO

It Sweeps the City at an Early Morning Hour.

MRS. CAPT. MC CARTHY'S GREAT LOSS.

Her Seven Children Seek Safety in a Coal Bin and Every One of Them Are Crushed to Death—Two Unknown Tramps Killed in a Box Car—A Train Blown from the Track and Several People Injured.

FARGO, N. D., July 8.—Following is an account of the destructive cyclone which visited our city Monday morning. The storm began at 2:30 o'clock and continued about half an hour. Earlier in the night there were some indications of rain, and about midnight it began to thunder and lightning, but few anticipated a serious storm. The wind first began to blow from the south, but suddenly shifted to the northwest and in a very short time was blowing a hurricane. The frightened inhabitants were aroused from their sleep, and lights were shining from windows all over the city, but outside there was nothing but darkness and tempest, and nothing could be heard but the angry roar of the wind and the crashing of flying debris. By 4 o'clock, however, people were hurrying in every direction to ascertain the amount of damage done.

Nine Persons Killed.

Some appalling discoveries were soon made, the bodies being the death of seven children of the late Capt. James McCarthy, who died only a few weeks ago. The children, who were at home with their mother, sought safety in the coal bin, where they were all crushed to death. The mother was also seriously injured, but it is thought she will recover. Two unknown tramps in a box car were also killed.

Passenger train No. 1 on the Northern

Pacific, going west, had just pulled out of the yards and had stopped at the Milwaukee crossing. The train was made up of three baggage cars, nine coaches and sleeping cars, a private car in which were a party of Chicago and Northwestern officials, and Superintendent McCabe's car. All the coaches and tender were blown from the track, but no lives were lost. The lights had been put out, so that there was no fire, or small fires, and the sleeping car and the conductor, brakeman and porters acted very coolly and calmed the frightened passengers, who were sent back to the city in special coaches.

A List of the Injured.

The injured passengers and trainmen are: George A. Manning, Post Falls, Idaho, fractured skull, fractured arm; J. F. Roundtree, Plummer, N. D., badly bruised and leg hurt; Miss McCabe, sister of Superintendent McCabe, ankle bruised; C. R. Helm, Ellensburg, Wash., knee hurt and bruised; Victor Montgomery, Chicago, scalp wound, taken to hospital; Mrs. N. K. Nelson, from Minn. to Seattle to join her husband, badly cut in several places and tendons severed and wrist cut; John Richie, baggage-master, cut in head; Albert Lee, express messenger, bruised; Mrs. R. C. Mann, Milwaukee, arm bruised and shoulder sprained; Adeline Kamm, La Crosse, Wis., badly cut; G. A. Marr, St. Louis, temple bruised; Mrs. C. R. Griffith, Miles City, Mont., badly bruised; Ben Sportman, porter of Vice President Purdy's car, spine injured and head seriously hurt.

A Damage of About \$75,000.

Considerable havoc was wrought in various parts of the city. The total damage is estimated at about \$75,000.

A Fight with a Mad Goat.

KANSAS CITY, Mo., July 8.—Frank Terry, an express messenger, his helper, and a baggage-man on a Santa Fe train Monday related a thrilling experience of a fight with a mad goat. They were carrying four to New York from San Francisco. One died at Denver from the heat. Another went mad and killed its mate. The mad one finally broke its cage and attacked the trainmen. They managed to escape at a side door and left the scene in full possession of the car. It raved for five minutes and then dropped dead. The carcass weighed 518 pounds. Only one seal reached Kansas City alive.

A Historic Site Almost Gone.

SALEM, Mass., July 8.—The frame of the old house, once of many gables that stood at the corner of Church and Washington streets, is now almost removed. This old house is declared by local antiquarians of note to have been the home of Governor John Endicott, who came with the charter to Salem and succeeded Roger Conant in 1628. The house is known to stand on the site of the original estate. The original gables were removed and the outside changed to a modern front many years ago, but the old timbers remained.

BIRMINGHAM, Ala., July 8.—The state convention of the Greenback party met here and nominated candidates for all the state offices. It was decided to make an effort for a combination with the Farmers' alliance. G. C. Thigpen, state treasurer of the alliance, was nominated for auditor. Judge L. C. Didn't Believe in Banks.

JOLIET, Ill., July 8.—One thousand one hundred dollars in gold was stolen from Mr. Driemiller, of Lockport, Sunday night. Driemiller was afraid to trust his money to banks and was also afraid to invest it for fear of losing it. He kept his gold concealed in a tin bucket hung in the eastern, the opening of which was inside the house. When Driemiller took a nap Monday morning to see if the bucket of gold hung in its place he saw it was gone. The burglars left no trace.

To Fill a Vacancy.

Miller Samuel White, of Lafayette, Stark county. Mr. White was a soldier and is a farmer. The district is largely Republican and the Democrats will not put up a man against him.

THE NEWS IN BRIEF.

President Harrison took his first bath in the ocean Monday at Cape May Point, N. J.

Mrs. Siefried, of Lima, Ohio, while temporarily insane took a dose of poison and also forced some down the throats of her two children. All will recover.

The Texas fever is said to be playing havoc with cattle in southern Kansas. Some 300 cattle have died so far.

John Eversole, of Findlay, Ohio, was trampled to death Monday by a cow he was trying to lead to pasture.

On Monday, near Quincy, Ill., Peter Allibee, a farmer, had his arm cut off near the shoulder and died to death.

John Kelly, an election sheriff at Louisville, Ky., in a quarrel at the registration polls, struck Policeman George Roberts with his fist and killed him.

Unfavorable weather in England has caused an advance in wheat. It is also reported that the East Indian crop will be short 2,000,000 bushels.

At Columbus, Ga., Monday night, Clarence McKelvey, a waiter, in a fit of jealousy cut the throat of Annie Reed while they were walking down the street.

country for life, and a majority of the peo-
ple in the republican party don't want him
longer than another two years. But the
political element of our country of which
Harrison is the embodiment certainly has
strong desires to live on and triumph for-
ever. The crowd who believes in favors
for the classes is now in power and it will
do everything it can to perpetuate itself.
The men who have carried things with a
high hand in the House for the last seven
months not only ask that they be accepted
again, but they also ask the people to give
up the power to make any other choice.
Reed and McKinley and Rowell admit that
they are candidates for re-election, and they
ask the people to give them the privilege
of naming the men who shall count the
votes and make the returns. In addition to
this the Force bill provides that the return
that is made can not be disputed by the
people.
Are the people of this district willing to
surrender their power in such fashion as
would please Rowell? Remember, if you
please, that this Force bill does not apply
to the South alone. We in this district can
be made to feel its iron claws whenever the
humor strikes a National Committee. It is
not necessary for us to discuss the bill as it
will affect the South; it is our first business
to inquire how it may affect us. If it gives
anybody the power of a tyrant over us, we
will reject the bill and its promoter or show
that we are such stuff as slaves are made of.
Whatever the form of government, the
people are to a certain extent against the
administration; they are at least very watchful
of it. And the better our government
is, the more watchfulness is required, for it
is comparatively easy to sow the seed of
tyranny among a people who rest in the
fancied security of a century of constitu-
tional and representative government. And
while some may think that there is a spirit
in this land that would crush the tyrant at
an early day in his career, yet let it be re-
membered that it is the duty of an intelli-
gent Republic to destroy such monsters at
their birth. And they are born when they
ask for the tyrant's powers, when they
claim the option of destroying the repre-
sentative character of the government.
Rowell has asked for all this; he is one of
the authors of a bill to confer autocratic
powers in perpetuity upon himself and a
few companions. Will the people in this
district do their duty in the premises?
Does The Rep. honestly think that the
McComas bill is intended to prevent gerry-
mandering? If it does we must ask the
privilege of speaking to a less hopeless
case. We take it that Mr. McComas would
like to perpetuate the old gerrymander, and
every man in the country knows that is
what he wants. And we believe The Rep.
editor knows the same thing. McComas
would like to prevent a disturbance of the
present gerrymander, and all the republic-
ans are with him. They know a good
thing when they hear the dinner bell ring.
Some republicans who have a chest full
of tools they want ground have presented
President Harrison a summer cottage,
furnished and all that. The members of
the president's family say that the present
was only a little bit of courtesy. When
they get back in Indianapolis they will
learn that social courtesy, no matter how
polished, doesn't take the form of summer
cottages. Courtesy may sometimes go to
the extent of a beveled edge visiting card,
but a summer cottage is a brick house re-
minder that a princely beggar is waiting
outside the door and ready for business.
SPEAKER REED is now trying to have
the Senate adopt a rule that will shut off
debate. Reed stands most awfully in need
of somebody to tell him that he is not the
United States. There are about 65,000,000
other people in this country, and if Reed
continues his career much longer their intel-
lectual exercise will consist in keeping their
mouths shut and gazing wonderingly at a
red vest.
THE REP. need not worry itself about the
demands of Frank Lawler's constituency.
South Water will have more than enough
to do in looking after the postoffice trust's
interest in the success of Capt. Jonathan H.
Rowell.
WILL the tombstone patriots please an-
nounce their return immediately upon the
occurrence of the event so that we may
have the celebration that was postponed on
the Fourth?
THERE are a number of white umbrellas
on the street. Since DeWitt Columbus
Shuckley has become an oracle of fashion
he has not better get himself to a millinery
store?
THE SENATE, on Monday, refused to
take up the tariff bill for the present. That
body is probably waiting until Mr. Blaine's
opinions become settled for the summer.

political element of our country of which
Harrison is the embodiment certainly has
strong desires to live on and triumph for-

for the classes is now in power and it will
do everything it can to perpetuate itself.
The men who have carried things with a
high hand in the House for the last seven
months not only ask that they be accepted

up the power to make any other choice.
Reed and McKinley and Rowell admit that
they are candidates for re-election, and they
ask the people to give them the privilege
of naming the men who shall count the
votes and make the returns. In addition to
this the Force bill provides that the return
that is made can not be disputed by the
people.
Are the people of this district willing to
surrender their power in such fashion as
would please Rowell? Remember, if you

to the South alone. We in this district can
be made to feel its iron claws whenever the
humor strikes a National Committee. It is
not necessary for us to discuss the bill as it
will affect the South; it is our first business
to inquire how it may affect us. If it gives

that we are such stuff as slaves are made of.
Whatever the form of government, the
people are to a certain extent against the
administration; they are at least very watchful
of it. And the better our government
is, the more watchfulness is required, for it
is comparatively easy to sow the seed of
tyranny among a people who rest in the
fancied security of a century of constitu-
tional and representative government. And
while some may think that there is a spirit
in this land that would crush the tyrant at
an early day in his career, yet let it be re-
membered that it is the duty of an intelli-
gent Republic to destroy such monsters at
their birth. And they are born when they
ask for the tyrant's powers, when they
claim the option of destroying the repre-
sentative character of the government.
Rowell has asked for all this; he is one of
the authors of a bill to confer autocratic
powers in perpetuity upon himself and a
few companions. Will the people in this
district do their duty in the premises?
Does The Rep. honestly think that the
McComas bill is intended to prevent gerry-
mandering? If it does we must ask the
privilege of speaking to a less hopeless
case. We take it that Mr. McComas would
like to perpetuate the old gerrymander, and

what he wants. And we believe The Rep.

country for life, and a majority of the peo-
ple in the republican party don't want him
longer than another two years. But the
political element of our country of which
Harrison is the embodiment certainly has
strong desires to live on and triumph for-
ever. The crowd who believes in favors
for the classes is now in power and it will
do everything it can to perpetuate itself.
The men who have carried things with a
high hand in the House for the last seven
months not only ask that they be accepted
again, but they also ask the people to give
up the power to make any other choice.
Reed and McKinley and Rowell admit that
they are candidates for re-election, and they
ask the people to give them the privilege
of naming the men who shall count the
votes and make the returns. In addition to
this the Force bill provides that the return
that is made can not be disputed by the
people.
Are the people of this district willing to
surrender their power in such fashion as
would please Rowell? Remember, if you
please, that this Force bill does not apply
to the South alone. We in this district can
be made to feel its iron claws whenever the
humor strikes a National Committee. It is
not necessary for us to discuss the bill as it
will affect the South; it is our first business
to inquire how it may affect us. If it gives
anybody the power of a tyrant over us, we
will reject the bill and its promoter or show
that we are such stuff as slaves are made of

Heart Disease.
Read the hospital reports, read the notary reports, read the medical publications, read the daily newspapers, and learn how widespread is heart disease, how difficult of detection it is to most people, how many and how sudden are the deaths it causes. Then read Dr. Flint's treatise on heart disease, and learn what it is, what causes it, what disease it gives rise to, what its symptoms are, and how it may be attacked. If you find that you have heart disease, call for your drug for a bottle of Dr. Flint's Remedy. This medicine may be had on application to Mack Drug Co., N. Y.

McVICKER'S THEATRE.

Shenandoah! Bronson Howard's greatest comedy, "Shenandoah," will be produced at the McVickers Theatre, on Monday evening, June 30th, for a run of several months. The cast of players will be the same that was engaged in the 300 nights' run in New York City.
Special scenery and new appointments are being prepared with a view to make the coming production of "Shenandoah," a notable one in the history of this theatre, already noted for artistic singing of every class of plays.
It goes without saying that Bronson Howard is recognized as the greatest American playwright.
"Shenandoah" is known to be the greatest comedy written on a distinctly American topic by an American author whose successes have been marked for years.
The cast is acknowledged to be the best yet seen in the comedy, its many members having been selected from several companies for individual successes in their several roles.
Enough is promised for the excellence of the staging when it is said that it is the intention of Manager McVickers to make it rank with the many that have given his theatre the name of being the leading house in the country for productions.
The theatre is the most comfortable, the best ventilated, the coolest in summer, the safest under all circumstances, and is now in its third year as the foremost theatre for productions and the best appointed theatre in the country.
Given a special production of the best comedy of the leading playwright of the country in the first theatre in the nation's favorite city, what more can be desired?
Excursion parties can secure seats now for any night during the ten weeks run and when the party is large a regular discount is made.

Trains From St. Hubert.
A more agreeable journey through diversified and attractive scenery than that which can be made by one of the two daily established fast trains of the Burlington & Ohio railroad between Chicago and Washington, Baltimore, Philadelphia and New York would be hard to find. The Baltimore & Ohio Railroad of to-day is a vastly different institution from that which it was a few years ago. The antiquated locomotives and cars which it used, which it replaced by the latest and best patterns and the through trains, substituted from engine to rear sleeper and including dining cars and Pullman cars of the most modern and luxurious character, compare favorably with those of any in the world. The sleeping cars especially built for these trains a few months ago have some admirable improvements. The elegant simplicity of the interior decorations is in marked contrast to the London ornamentation which not long ago was considered the height of art in such places. The wood is of mahogany, with little carved or raised work, but brought down to the highest finish, carefully selected for the grain and texture and showing the artist's hand in the selection of the wood does not tire of admiring. The improvement in the locomotive equipment is equally remarkable. In order to climb the Alleghenies, from whose heights the passenger enjoys views of sublimity and beauty which he never forgets, heavy grades and numerous curves were necessary. In constructing the road and until recently it required the help of extra engines to get a train to the summit. Now when the foot of the foot of the mountain is reached, instead of two or more engines being called into service, there is attached to the train a single engine weighing 67 tons, having six coupled drivers and cylinders 21x28 inches in size, and this powerful machine takes the heavy train up the long stretches of grades, reaching its apex at 1,500 feet to the mile, at a lively pace. The daylight ride over the mountains, especially in the time of verdure, shows a wonderfully attractive panorama in which grandeur and beauty are constantly mingled, and indeed the entire journey between Washington and Baltimore proves the propriety of calling this road "Picturesque B. & O."—Railway Age.

BE UP AND DOING
If You Desire Decatur to Have the National Memorial G. A. R. Hall.

The general committee of Dunham post G. A. R., having in charge the matter of urging the construction of a National Memorial G. A. R. hall in this city met last night in Capt. John A. Barnes' office to discuss the matter. The following soliciting committee of six, was appointed: B. O. Reynolds, D. S. Shollabarger, W. H. Linn, O. E. Curtis, D. A. Maffitt and W. H. Starr and they will at once commence soliciting the necessary funds to defray printing bills, and the expense of sending a committee to Boston to properly present and actively work for the endorsement of the enterprise by the national encampment to be held in that city August the 13th. It will take from \$1,000 to \$1,500 to defray these expenses but if the advantages that are almost certain to accrue to Decatur and her people by reason of this outlay are taken into consideration, it will be seen that the outlay amounts to nothing. With the endorsement of the National Encampment the erection of a National Memorial Hall in Decatur will become a certainty. And what place is better entitled to the hall than this city, the birthplace of the G. A. R.? There are 400,000 members of the G. A. R. in the United States, and each member could be counted on donating 25 or 50 cents towards defraying the construction expense of the building. It will be thus seen how easily the necessary money could be raised to build a hall, the construction of which would turn the eyes of the Nation on Decatur, and do her more good in every way than anything that has offered itself in years. The erection of such a building would involve the outlay of at least \$100,000, and can you not see how great the immediate good results would be for the city, to have such a sum expended among her working people and merchants?

The time for action is short. Something must be done before the National Encampment meets in August, and citizens generally, should meet the soliciting committee or any member of it, cordially, and contribute liberally to the expense fund. Give what you can. Small sums make a grand aggregation in the end, and there is no one in Decatur who cannot afford to contribute something toward the enterprise, the best that they may ever have the opportunity of gaining for the city of their choice.

The committee will commence work to-day. Be prepared to do something substantial when members call on you; Decatur's opportunity is now.

THE BLUE MOUND

Misfeasance in Office Case in Full Blast Before Esquire Curtis.

Some time ago Thomas Doran was fined for selling liquor in Blue Mound without license, Justice P. L. VanCleave imposing the fine. Doran had made the necessary affidavit for change of venue before the trial, but no attention was paid to his prayer or affidavit and the case went to trial with the above result. The court overruled other matters of importance and Doran, it is claimed, stood no show at all. Mr. Doran swore out a warrant charging Justice VanCleave with a variety of wrong doings, misfeasance in office being among them. Upon conviction of this last offense a very heavy fine may be imposed, and expulsion from office will follow. Robert Ward, an ex-justice of the peace, was also arrested at Doran's instigation, charged with aiding and abetting VanCleave. The case came up for trial yesterday afternoon in Justice Curtis' office and W. C. Johns and L. A. Buckingham, attorneys for the defense, moved to dismiss the cases. Messrs. Finn & Hutchison, attorneys for Doran, contested the motion, and the afternoon was given up to argument. They were trying questions of law and not of fact, all evening, and they are not through yet. J. J. Finn, for the prosecution, and Senator Johns for the defense, made elaborate arguments for their respective propositions, and this morning David Hutchison and L. A. Buckingham will get a verdict at the law as she isn't, or is, as you please. The case will be resumed this morning, and some sensational developments are promised.

The heat in the court room was oppressive until Otto R. Curtis & Bro. placed electric fans in the room.

There are 40 or 50 witnesses present, and both sides have numerous friends and adherents.

Should Not Be Delayed.

The resolution of Alderman Simpson's that the city attorney prepare an ordinance for the opening of Cerro Gordo street across the Illinois Central railroad was a good move, and the ordinance when prepared should be adopted and acted on immediately. The Illinois Central railroad is the only one interested in not having the street extended, and there is no good reason why the people of Decatur should inconvenience themselves merely to please the selfish Illinois Central. There is no street leading to the Illinois Central gang plank depot, and the proposed Cerro Gordo extension will allow vehicles to go right up to the gang planks. Of course the company whose policy is to take everything in sight without giving anything in return will be inconvenienced to the extent of having to move their baggage room, and as they have recently put in the floor of that room three 2x6 16 plank the loss will be simply enormous to them. Luckuries come high however and if the Central wishes a monopoly of the luxury of refusing to acquiesce in any of the wishes of people of Decatur, they should, certainly, be no longer allowed to prevent the opening of a much needed thoroughfare. By all means push the matter to a successful ending.

Mexican War Veterans.

Smith and Col. Ferris Forman. The citizens of Greenville will entertain the veterans free of cost. Veterans attending will call on their agent for return certificate to get the reduced fare.

Capt. John W. Hart, Govt. Secretary M. W. V. A.

Sewer Work Stopped.

The sewer constructors on North Broadway struck a spring while excavating Monday evening, and the small pump on hand proved insufficient to keep the water out. Yesterday afternoon they were forced to quit work because of the water, but the cessation of work will probably be only temporary. The large pump contracted for by Mr. Hunt has not yet arrived, but is expected daily, and it will be able to keep the excavation clear of water.

FARMERS IN COUNCIL.
Quarterly Meeting of the County Assembly of the F. M. B. A.

The farmers have realized the effectiveness of close organization. They feel that grievous burdens are pressing hard upon them, and they have determined to unite in a strong and vigorous effort to discover the origin of these burdens and remove the cause.

This is the heart of the F. M. B. A. movement, which in so short a time has gained in Macon county. We may not agree with all their conclusions, but no honest man can help recognize the fact that the burdens they complain of are frightfully real, or can refrain from admiring the spirit with which they have entered upon the warfare against those influences in government that are bringing the agricultural classes of the country to a condition little better than that of serfdom.

Last January the association had become sufficiently strong to organize a county assembly. At that time the Review prophesied that the membership would be doubled in six months. The result has more than justified the prediction for now the membership in the county is over 1,000. The second regular quarterly meeting of the county assembly began here yesterday. It had not been very long advertised and when some of the politicians got wind of it they began to get frightened and to ask what was up. Their fears were premature to say the least, for it was a regular meeting, provided for in their constitution, and only matters of direct interest to the order were considered.

The meeting was called to order at 11 o'clock a. m. in the court house, John Longstreet, of Macon, is president, and W. P. Davidson, of Macon, is secretary. The first is a republican, the second a democrat. The roll call showed over 40 delegates present, and further that there are now 19 local assemblies in Macon county, four of them not being old enough to send delegates. The session was held with closed doors. A committee consisting of one from each lodge was appointed to draw up resolutions expressing the sentiments of the farmers.

The committee will make its report to-day, and the resolutions will probably be given to the public at the final adjournment to-night.

It is understood that one of the resolutions will declare against the policy of nominating a separate ticket, but will require all candidates for legislative or congressional offices to make a public declaration in favor of the leading principles that are cherished by the F. M. B. A.

A number of the delegates remained in the city over night. The attendance yesterday was very large, in view of the weather and the fact that this is the busiest season of the year, but it is thought the attendance to-day will be even larger.

THE SPRINGFIELD RACES

Start Very Favorably But Are Spoiled by the Rain.

Yesterday was the opening day of what will doubtless be the most brilliant and successful races ever held in Springfield. They are under the auspices of the Central Illinois Trotting and Pacing Breeders' association, the representatives of which number the most prominent horsemen of the city.

Ever since Friday the horses have been arriving for the meeting, and the scene at the fair grounds yesterday would have delighted the heart of any lover of horse flesh. The track is in splendid condition and has received the highest praise from the prominent horsemen who are assembled there. There were only two races yesterday. The 3 year old trot for a purse of \$200, and the 2:35 class trot for a purse of \$500. In the former, a bay filly owned by Miller & Sibley, of Franklin, Pa., won against a large number of 2-year-olds; time, 2:37 1/2, 2:38 1/2. In the latter Monocle, a bay gelding, won; time, 2:30, 2:30 1/2.

The amusement of the day was spoiled by the heavy rain that fell in the afternoon, the track becoming too heavy for further use.

TRACK AND TRAIN.

Baggageman Eli Harwood, of the Wabash is sick.

Superintendent A. A. Goodrich, of the Wabash is in the city yesterday.

John Chenoweth, of the Wabash carpenter shops, has resigned his position.

Jo Whitley will take his old run on the Wabash, between Decatur and Quincy, to-day.

Wabash passenger train No. 4 was late yesterday because of the breaking of the air hose.

General passenger and ticket agent F. W. Greene, of the Wabash, has returned from Milwaukee.

Car Inspector Dan Higgins, of the Wabash, returned yesterday from a visit to the World's Faircity.

Wabash Engineer W. Felton and family, who have been visiting in Littlefield, Ill., has returned home.

Lincoln Central Baggage-master E. F. Willis is on the sick list, and Harry Shimer is on duty in his stead.

Fred Badschhausen has been promoted to the position of chief clerk of the freight department of the Wabash.

H. A. Hockaday, night yardmaster of the Wabash, has been promoted and Mr. Crowe succeeds to his place as yardmaster.

Close For Half a Day.

A movement is on foot to have all our merchants, business men and manufacturers unite in shutting up and closing down for a half day some afternoon next week, in order that their employees may have an opportunity to take in the races. As this is Decatur's first meeting nothing should be omitted that would tend to add to the success of the meeting, and at the same time it would be a kindness to the employees that would be greatly appreciated. In no other way can they have an opportunity of enjoying the races, and if all will unite and select the same afternoon, no one need suffer thereby. It is to be hoped that all who are approached on the subject will give a hearty acquiescence.

Arrested Charged With Adultery.

Officers Barrett and Law once arrested George and Ida Sullivan at their home on East Main street last night, on a warrant sworn out before Justice Curtis by William Blake, charging them with living in adultery. They submitted quietly to the arrest, said it was spite work, and went with the officers to the court all where they were locked up. They claim to have been married in Springfield last December, and will telegraph to that city to-day for the necessary proof. They have lived in this city about three months, and yesterday morning were out a peace warrant against Blake. He retaliated by doing some swearing himself.

THE ICE BATH PROJECT by the Citizens Street Railway.

About the only thing developed yesterday about the proposition for Decatur to take the Indianapolis club and finish the season there, was that the club was discouraged in the later State League was the discouraging fact that those most directly benefitted would do nothing towards getting the enterprise on its feet. A REVIEWER met Secretary Spink at the depot yesterday afternoon and asked him how his visit had resulted. He was disgusted and discouraged somewhat and his remarks were a little bit acid.

"I saw Manager Ferguson," he said, "and he was very nice and apparently willing to do something, but I quickly saw that he could do nothing, and concluded to see Shollabarger, himself. That gentleman refused to give a cent towards getting the thing started, but said he would give \$5 for every game that was played in Decatur. I then offered to subscribe \$100 towards it on my paper if he would subscribe \$200 for his company. That he would have given us a good starter and numerous citizens of Decatur told me if the Citizens Association would do what right they would subscribe \$20 or \$50 apiece. It would not have taken long to have made up the amount, but he refused to do anything, and entered into an explanation of what a public spirited man he is; how he had contributed liberally and continually for all public enterprises in Decatur and he left the impression with me that he is the only man in Decatur who ever did anything for the town, and in fact that there wouldn't have been any Decatur had it not been for him. I contend that this is no public enterprise. He and his company would reap more direct benefit from it than any one else in Decatur, but I presume he wants benefits to come his way without expending very much for them."

Mr. Spink said Al Morgan would go ahead and see what could be done without Mr. Shollabarger's assistance, and that possibly a stock company would be formed to the furnish guarantee fund of \$300. He seemed to think that the club could not very well help making expenses anyway, and that Decatur could not possibly lose anything. It certainly is a golden opportunity to secure the season's amusement in the National game at a small cost, and it is hoped that success may yet crown the efforts of the promoters of the scheme.
